

## BAGEZEE BUCKET

**This unique style of bucket, when fitted to a conventional fork lift truck, will convert the machine into a vehicle that can handle building and other materials easily and comes into its own when filling bags.**

### Load lorries in minutes!

**Quick release fixings.**

**One hydraulic supply required. Hand operated valve controls operation.**

**Available stamped by Government Weights & Measures: 5, 6 and 8 cu m. Other sizes on request.**

**Spillage remains in storage bays - no contamination into other areas.**

### Reduce costs!
