

Strimech Bagezee (poly bag filling system)

The original award-winning Bagezee filling system was designed and developed by Strimech over 19 years ago and is capable of filling 40 bags in 60 minutes. It can be fitted to most telehandlers, loaders and lift trucks providing they have a lift capacity of 2.5 tonnes or above.

It is available calibrated which allows measure amounts to be sold legally. The capacities range from 0.5m³ to 1.0m³. Each unit is fitted as standard with bolt-on wear plate.

- One person operation.
- Can be supplied calibrated.
- Available with sweeper attachment.
- Compatible with telehandlers and loaders.
- Supplied with bolt-on wear plate.
