

New Design Strimech Multi-Bucket

Strimech's heavy duty multi-bucket is designed and built to the highest standard, with today's agricultural environment in mind thus making it both powerful and durable which guarantees a longer and more effective working life. The Strimech multi-bucket comes with bolt on side plates offering the customer greater versatility when handling various materials for example; mucking out buildings, loading silage and meal into feeder wagons as well as handling round and square bales. This eliminates the need to constantly change attachments.

Features;

- Profile Claw Or KV Tine Option.
- High Capacity or standard Capacity Bolt On Sides.
- Bolt On Wear Edge As Standard.
- Heavy Duty Hydraulic Rams.

Model	Capacity	Height	Depth	Width	Weight
MBG/70	0.75m ³ (26.5ft ³)	1.0m (3' 3")	1.2m (3' 11")	2.11m (7' 0")	670 kg
MBG/76	0.85m ³ (30ft ³)	1.0m (3' 3")	1.2m (3' 11")	2.29m (7' 6")	685 kg
MBG/80	0.95m ³ (23ft ³)	1.0m (3' 3")	1.2m (3' 11")	2.42m (8' 0")	700 kg
MBG/86	0.75m ³ (26.5ft ³)	1.0m (3' 3")	1.2m (3' 11")	2.11m (7' 0")	670 kg
