

## Strimech Bale Fork c/w Detachable Top Frame

Our Round bale fork is designed to handle round bales up to 1.8m (6ft) side by side. This fork can also be used to handle D1000 or Hesston type bales. Our smaller diameter tines allow for easier penetration into densely compacted materials.

### FEATURES:

- Handles 3 Mini Hesstons or 2 Large Hesston Bales.
- Complete With Three Forged Tines, 980mm Long (5 tines shown, available as an optional extra).
- Detachable Back Frame Allows Single Bales To Be Stacked Close To Shed Roof.
- Available With Or Without Brackets.
