

## Wastemaster High Tip Buckets

Strimech's range of PRO-HD High Tip buckets are designed and built to the highest possible standard, the materials used have been carefully chosen for both strength and durability, thus ensuring a greater working life.

The PRO-HD High Tip bucket is mounted onto a heavy duty carrying cradle, this increases the discharge height of the bucket allowing for an easy fill factor and greater discharge of materials, the buckets are designed with a clean internal shell, this design ensures easier handling of materials. The design also offers greater protection to the hydraulic rams with double skinned sides.

### Key Features

- Heavy duty cushioned rams with flow control
- 3 piece reversible boron wear edge
- Hardox shell option
- Spill Guard option

PART NUMBER	WIDTH	CAPACITY	LEAD TIME
HT25-80	8' 0"	2.5m <sup>3</sup>	4-6 Weeks
HT28-86	8' 6"	2.8m <sup>3</sup>	4-6 Weeks
HT30-90	9' 0"	3m <sup>3</sup>	4-6 Weeks
HT35-96	9' 6"	3.5m <sup>3</sup>	4-6 Weeks
HT40-86	8' 6"	4m <sup>3</sup>	4-6 Weeks
